Families Supporting Families

The Family Resource Network of Ohio is here to help families by providing resources, tools, and trainings. We use the LifeCourse Framework to help individuals and families of individuals with developmental disabilities support each other in the pursuit of the good life. Together, we can achieve great things.

BLOG ABOUT IT!

Visit our family forum discussion page which allows families across Ohio to connect and discuss topics that are important to our community.

WHAT IS LIFECOURSE?

The LifeCourse framework was created to help individuals and families of all abilities, and at any age or stage of life develop a vision for a good life, think about what they need to know and do, identify how to find or develop supports, and discover what it takes to live the lives they want to live. Individuals and families may focus on their current situation and stage of life, but may also find it helpful to look ahead to think about life experiences now that will help move them toward an inclusive, productive life in the future. The framework is designed to help any citizen think about their life, not just individuals known by the system of services.
